

*Resting in the River Organic Farm®
& Natural Products*

March 7, 2018

Dear Friends,

This is a most sincere letter expressing my deepest thanks and gratitude to all of my good friends who have loved my products and the story of *Resting In The River*. Running the farm in New Mexico for almost 20 years has been one of the highlights of my life! I met so many wonderful people along the journey of the farm and through our product line. I am truly grateful for all of the joy, hard work, education, and success *Resting In The River* and its products has achieved.

It is now time for me to wind down the product line. The farm was sold four years ago to a lovely family who is taking very good care of the land, making it a glorious example of sustainability. Change is inevitable in all of our lives, and I feel blessed that I was able to produce healthy, safe products for all these years that are clean and wholesome. Thank you for sending me so many testimonials about the efficacy of the products and for letting me know how they helped you overcome skin issues, throat, cold and allergy issues, and more importantly how they added to your well-being. Thank you so very much for being faithful customers, and for purchasing the products that included a great deal of love and passion for health and well-being.

I wish each and every one of you every happiness and continued health. Thank you from the bottom of my heart!

With love and gratitude,

Marsha Mason, Founder
